STEMNET

Science, Technology, Engineering and Mathematics Network

BOOST STAFF AND STUDENTS' FUTURE WITH YOUR FREE ENGINEERING AND TECHNOLOGY DIRECTORY!

Dear Design and Technology / Engineering teacher:

- Are you finding it hard to decide which D&T / Engineering resources to use to support your lesson planning?
- Then get your hands on your FREE printed copy of the Engineering and Technology directory by filling out the form below!

Created by the key players in the Science, Technology, Engineering and Maths (STEM) community, each directory aims to guide you through STEM schemes and resources available to teachers across the UK to help you enrich your lessons and stimulate your students.

The directories offer a reliable and comprehensive overview of each scheme that clearly explains their benefits to teachers and students.

"This directory will make it easier for subject leaders to access information about STEM-related schemes which can be used to enhance and enrich teacher professional development and student learning."

D&T the design and technology association

The STEM directories are supported by the Government's Department for Children, Schools and Families (DCSF) and the Department for Innovation, Universities and Skills (DIUS).

STEMNET

Science, Technology, Engineering and Mathematics Network

SHINE A LIGHT ON ENHANCEMENT AND ENRICHMENT WITH THE NEW STEM DIRECTORIES!

In the FREE D&T/Engineering directory you will find:

- A summary of the activity or scheme and the benefits it can offer to you and your students
- A full breakdown of the appropriate subject areas for each resource

- Clear information about each resource's curriculum links
- Resource format, age range, regional coverage and logos
- Signposts to E&E activities across the UK for primary and secondary students of all ages

The STEM Directories have been compiled by a consortium comprising:

- The Royal Institution of Great Britain
- The British Association for the Advancement of Science
- The University of the West of England, Bristol

And in association with:

- The Science Community Representing Education (SCORE)
- The Advisory Committee on Mathematics Education (ACME)
- The Royal Academy of Engineering
- STEMNET

Visit www.stemnet.org.uk to find out more!

Just fill out the request slip below to get your free directory/directories.

Please indicate how many **FREE** STEM directory / directories of resources you would like (max 3 directories per subject):

☐ **Science** ☐ **Maths** ☐ **Engineering and Technology**

Teacher Name: _____ Job Title: _____

School Name: _____

Address: _____

Postcode: _____ Email address: _____

Data statement:
I agree to STEMNET holding the details I have supplied on their database. I understand that STEMNET or its partners may contact me with regards to evaluating the directory or offering more educational materials.
